

MPAGES_SVC_EVENT

MPAGES_SVC_EVENT is a routine used to launch into the Discern MPages web service.

Note: This event type is only valid with an MPages license.

For this routine to work, the following META tag must be included in the HEAD of the html file:
<META content='MPAGES_SVC_EVENT' name='discern'>

Syntax

MPAGES_SVC_EVENT(uri,params)

Metasymbols

uri

An address specifying the report to be executed.

params

The parameters for the report.

Examples

This example runs the report ARH_RECENT_LOGINS using the Discern MPages web service.

```
<a href='javascript: MPAGES_SVC_
EVENT("http://ipvmdiscernmp:8080/discern/mpages/reports/arh_recent_logins","MINE,1")'>
```
